

## Maximized Charging Power with 100W Output

This **mult port charging station** provides a powerful **100W output**, making it perfect for charging multiple devices simultaneously without compromising on speed. Whether you need to charge **phones, tablets, Bluetooth speakers, or smartwatches**, you can count on this device to deliver an efficient and steady charge.

## Built-in Safety Features

Safety is our top priority. The charging station comes with **over-charging, over-voltage, short-circuit, and over-temperature protection**. The **flame-retardant ABS material** ensures that the device remains durable and safe for long-term use, making it perfect for high-demand environments like schools, offices, and warehouses.

## Organized and Space-Saving Design

This charging station comes with **adjustable dividers**, allowing you to customize the space to fit a variety of device sizes. You no longer need to deal with tangled cords or multiple bulky chargers. The neat, compact design saves you space and keeps your devices organized.

## Versatile Compatibility

With its **Type-C and USB ports**, this charging station is compatible with a wide range of devices, including **smartphones, tablets, power banks, smartwatches, e-readers, gaming consoles** (like **Nintendo Switch**), and more. It's a one-stop solution to keep all your gadgets powered up at the same time.

## Durability & Reliability

Made with **flame-retardant ABS**, this charging station is designed to last. Whether used in **offices, schools, or businesses**, this product offers the durability and reliability needed for regular use. The high-quality build ensures that this charging dock can handle multiple devices with ease, year after year.
