

All-in-One Fast Charging Solution - Designed for Professionals

Meet your workspace's new charging essential – the **140W Magnetic Wireless Charging Station**, engineered for high-efficiency multi-device charging. This unit features a [2-in-1 modular structure](#), offering both **wireless** and **wired fast charging** in a compact, modern form.

Modular Dual-Structure:

- **Top Unit: 15W Magnetic Wireless Charger**

Ideal for smartphones with magnetic alignment, offering stable and efficient Qi-compatible wireless power delivery.

- **Base Unit: [USB Charging Hub](#)**

Features **PD100W USB-C**, **QC3.0 USB-A**, and an additional USB-C port, perfect for charging MacBooks, laptops, tablets, and multiple mobile devices simultaneously.

Use Case Applications:

- **Offices:** Reduce desk clutter while powering laptops and phones.
- **Gyms:** Provide safe, shared charging for members and staff.
- **Restaurants & Cafes:** Create value-added services for customers with fast wireless + wired charging options.
- **Public Areas & Lounges:** Ideal for hospitality and service industries seeking enhanced user experience.

Why Choose Our Factory?

- **Certified Factory:** ISO9001, ISO13485, BSCI
- **R&D Expertise:** We support custom PCB, structure design, and private label branding.
- **OEM/ODM Services:** Fast response, professional support, and flexible production.
- **Global Export:** Experience with B2B clients across Europe, America, and Asia.
