The USB C HUB is engineered to meet the needs of modern professionals and tech enthusiasts. Its sleek aluminum alloy casing ensures durability and efficient heat dissipation, while its lightweight design makes it highly portable.

Key Features:

- **4K HDMI Output**: Connect your device to external displays, projectors, or TVs with support for up to 4K resolution at 30Hz, delivering crisp and clear visuals.

- **Dual USB 3.0 Ports**: Transfer data at speeds up to 5Gbps, allowing you to connect peripherals such as keyboards, mice, and flash drives.

- **Power Delivery Charging**: The USB Type-C port supports Power Delivery, enabling fast charging for your devices while in use.

- **Plug and Play**: No drivers or software required; simply plug in and start using immediately.

- **Wide Compatibility**: Compatible with a range of devices including MacBook, Chromebook, Dell XPS, Huawei MateBook, and more.

As a leading USB-C hub manufacturer in Shenzhen, China, Goochain offers OEM and ODM services to meet your specific requirements. Our products are designed and manufactured in our Dongguan plant, ensuring high quality and reliability.
