

Elevate your workspace with our 35W GaN USB-C to [HDMI 4K Docking Station](#), designed for seamless connectivity and efficient power delivery. This docking station features five essential ports:

- **HDMI Port:** Supports 4K@30Hz resolution, ensuring crisp and clear display on external monitors or TVs.
- **USB 3.0 Port:** Allows for high-speed data transfer up to 5Gbps, suitable for connecting peripherals like flash drives and external hard drives.
- **USB-C Ports (PD & QC):** Offer fast charging capabilities with Power Delivery and Quick Charge support, accommodating various devices.
- **RJ45 Ethernet Port:** Provides a stable 100Mbps wired internet connection, ideal for environments where Wi-Fi is unreliable.

Crafted from premium aluminum alloy, this docking station ensures durability and efficient heat dissipation. Its compact design makes it a perfect companion for laptops, tablets, and other USB-C enabled devices.

As a leading manufacturer, we offer extensive [customization options](#) to meet your specific requirements. Our in-house R&D team can tailor the design, functionality, and branding of the docking station to align with your business needs. We pride ourselves on delivering high-quality products with quick turnaround times, ensuring your projects stay on schedule.

Small and Compact Design
