Universal 45W Fast Charging Solution for Global POS Deployments

This high-efficiency 45W USB-C power adapter supports global voltage standards (100-240V) and comes with a complete set of international plugs, including US, EU, UK, and AU, making it ideal for worldwide usage.

Whether powering a **POS terminal**, tablet, handheld scanner, or mobile printer, this charger ensures fast, stable, and safe charging in retail chains, field operations, or travel-intensive industries.

Designed for Global Businesses & B2B Integration

The detachable plug design makes it perfect for cross-border deployments or as a bundled POS accessory in B2B product packages. Designed and manufactured by Goochain – a leading POS hardware manufacturer in Dongguan, China, this charger ensures industrial-grade quality with customization options available.

OEM & ODM Customization Ready

- Private labeling and logo printing

- Custom packaging for brand distributors

- MOQ-friendly B2B production

- Cable options (Type-C to Lightning available)

Safety & Compliance

With multiple certifications (CE, FCC, RoHS) and built-in protection against overvoltage, short circuits, and overheating, this charger is built for safe daily use in commercial environments.
