

The 5-Port POGO PIN Charging Dock is an efficient charging solution designed to charge multiple devices simultaneously. Compatible with iPads, POS terminals, and other tablets, it features secure POGO PIN technology, ensuring fast, stable, and reliable charging. Its robust construction and high-quality materials ensure long-lasting performance, even under high loads and continuous use, making it ideal for commercial environments with large-scale device charging needs. Certified with ISO 13485 and ISO 9001, this product meets high standards for quality and safety.
