

This 5-bay magnetic pogo pin charging dock is a professional-grade solution for fast charging and data synchronization. Designed for mPOS industrial smart devices, it integrates spring-loaded pogo pin connectors with strong magnetic alignment to ensure stable multi-device connectivity.

Supporting PD25W fast charging and USB 2.0 data transfer, this multi-port pogo pin docking station is ideal for POS terminal charging, barcode scanners, and handheld medical or logistics equipment.

For combined mPOS cable solutions, check our [Multi-angle USB C cable](#).

Key Features

5-Port Charging Dock: Charges up to 5 smart terminals at once.

PD25W Fast Charging Base: Delivers stable high-speed power to connected devices.

USB 2.0 Data Sync: Enables data communication for system backup or updates.

Magnetic Pogo Pin Connector: Ensures quick and precise docking.

Spring-loaded Gold Pins: Provide reliable low-resistance contact for long-term use.

Durable Charging Station: Built with flame-retardant ABS/PC for industrial use.

Modular Design Available: For OEM POGO charging systems and custom connector layout.
