

All-in-One Charging Docking Station

This 5V2A desktop **charging dock** features **4 USB-A charging ports** and a **Qi-certified wireless charging pad**, allowing users to charge multiple smartphones and tablets simultaneously. With a clean and compact design, it minimizes clutter and is perfect for modern workspaces, hotel lobbies, classrooms, and home use.

Main Features

- **4 USB Ports with 5V2A Output** - Fast and efficient charging for most mobile devices.
- **Built-in Wireless Charging Pad** - Qi-enabled charging for iPhones, Androids, and earbuds.
- **Universal Compatibility** - Works with iPhone, Samsung Galaxy, iPad, Huawei, Xiaomi, etc.
- **Overcurrent and Overheat Protection** - Ensures safety for both device and user.
- **Durable Housing** - Fire-retardant ABS shell for long-term use and heat resistance.

Manufacturing Advantage

Produced by our **professional factories in Shenzhen and Dongguan**, we provide **wholesale, OEM, and ODM** charging stations to global brands, Amazon sellers, corporate buyers, and electronics distributors. Our production line supports customized logos, housing colors, port configurations, and packaging.
