

This **two-in-one tablet and POS terminal display stand** is crafted from **premium aluminum alloy** for long-term durability and professional aesthetics. Designed with flexibility in mind, it features **145° front-to-back tilt adjustment** and **360° screen rotation** to switch easily between landscape and portrait modes—ideal for both interactive customer engagement and POS operations.

The **modular design** allows for two types of installation:

- **Screw-down mounting** for secure counter installation
- **Freestanding desktop use** for mobility and flexibility

Whether you're using it in a high-traffic **retail store**, a **hospital front desk**, or a **hotel check-in kiosk**, this stand integrates seamlessly into any environment.

## Why Choose Us as Your Manufacturer?

We are a **direct factory with over 10 years of R&D and design experience**, offering OEM and ODM services to meet your specific business needs. Our engineering team can help you adapt this product for custom tablet models, integrate branding, or modify structures for unique commercial applications.
