

Enhance your commercial digital display setup with the **Goochain Anti-Theft Tablet Kiosk Wall Mount**, a professional-grade mounting solution designed for stores, offices, hospitals, and industrial facilities. This secure iPad wall mount features a **lockable steel enclosure** that protects tablets from theft or tampering—perfect for public or high-traffic environments.

The **full-motion articulating arm** extends up to 16 inches, providing a wide range of movement, including **$\pm 90^\circ$ swivel**, **$\pm 15^\circ$ tilt**, and **180° rotation**. This flexibility allows users to adjust viewing angles easily for presentations, customer check-ins, POS systems, digital catalog displays, or smart home control hubs.

Crafted from durable steel and engineered by Goochain's experienced **China tablet kiosk manufacturer team** based in **Shenzhen and Dongguan**, this mount ensures long-term reliability in commercial use. The enclosure supports multiple iPad generations—iPad 10, 9, 8, iPad Air 10.5, and iPad Pro 10.5—making it an ideal universal solution for enterprises and system integrators.

Whether you are a retailer, system integrator, automation solutions provider, or hospitality operator, this anti-theft wall-mounted iPad kiosk offers a secure, functional, and aesthetic display option.
