

## Secure & Durable Anti-Theft Construction

This commercial anti-theft iPad stand is engineered using a reinforced metal chassis and lockable enclosure to prevent unauthorized removal or tampering. Perfect for high-traffic business settings such as retail storefronts, exhibition halls, restaurants, trade shows, and service counters.

## Universal Fit for Multiple iPad Models

Designed with adjustable internal brackets, the stand supports multiple Apple tablet sizes (9.7", 10.2", 10.5"). This makes it ideal for businesses operating chains or multi-location deployments without needing to standardize on a single iPad model.

## 360° Swivel Kiosk for Customer Interaction

The smooth rotating base allows easy switching between staff-facing and customer-facing modes. This makes the stand perfect for retail checkout counters, self-ordering kiosks, digital menu displays, hotel check-in terminals, and visitor registration stations.

## Flexible Countertop & Wall-Mount Design

With pre-drilled holes and a heavy metal base, the stand supports:

- Fixed countertop installations
- Desktop POS setups
- Wall-mounted interactive displays
- Freestanding kiosks with enhanced stability
