

Enhance your productivity with our 7-in-1 USB-C **Multiport Hub**, designed to streamline your workspace by integrating multiple functionalities into a single device.

Key Features:

- **Dual Video Outputs:** Connect to external displays via HDMI or DisplayPort, both supporting 4K resolution at 30Hz, ensuring crisp and clear visuals.
- **High-Speed Data Transfer:** Three USB 3.0 ports provide data transfer speeds up to 5.0Gbps, suitable for peripherals like flash drives, keyboards, and external hard drives.
- **Power Delivery:** The USB-C PD 3.0 port delivers up to 100W of power, enabling fast charging for your devices.
- **Audio Support:** The 3.5mm audio jack allows for both microphone input and audio output, facilitating video conferencing and media playback.
- **Ethernet Connectivity:** The RJ45 port supports 1000Mbps network bandwidth, offering a stable wired internet connection.
- **Foldable Stand:** The **aluminum stand** is adjustable and foldable, providing ergonomic viewing angles and easy portability.

This hub is plug-and-play, requiring no additional software installation, and is compatible with a wide range of USB-C devices.
