

Product Overview:

This USB Type-C PD Charging Station is a high-performance solution that delivers up to 400W of total output power, with 20 USB Type-C ports, each capable of 20W PD fast charging. Designed for large-scale commercial and specialized environments, it ensures rapid and efficient charging for multiple devices. It supports a wide input voltage range of 100-240V, making it compatible with global power grids. As a factory with advanced R&D and customization capabilities, we offer tailored solutions to meet specific needs, such as port configuration, output power, and physical dimensions.

Product Contents:

- 1 x 20-Port USB Type-C PD Charging Station
- 1 x Power Cable (customized plug type based on region)

We offer a fully customizable solution that meets the specific needs of our customers, from port configurations to output power. Whether you need a [Magnetic Pogo Pin Charging Station](#) for seamless device charging or an [iPad POS Stand](#) for a professional retail setup, our products are

designed to deliver both flexibility and reliability.

As a manufacturer with strong R&D capabilities, we ensure that each product is engineered to provide the best performance and meet industry standards, making them ideal for a wide range of applications.
