

The Custom **USB-C Charging Stand with Pogo Pin Connector** by Goochain is engineered to meet the demanding needs of POS terminals, payment devices, and handheld card readers. This charging dock offers a perfect balance of durability, performance, and customization, making it ideal for commercial and industrial applications.

### **Key Features & Benefits:**

- **Robust Charging Interface**

Equipped with a USB-C input and precision pogo pin connectors to ensure fast, stable charging and data transfer without wear and tear.

- **Durable Construction**

Made from high-quality flame-retardant ABS + PC materials, providing excellent mechanical strength and heat resistance for long-term use.

- **Ergonomic Design**

Angled docking cradle with an anti-slip base ensures secure placement and easy device insertion/removal, minimizing accidental disconnections.

- **Customizable Pogo Pin Layout**

Supports tailored pin configurations to perfectly fit different **POS terminals**, payment readers, and handheld devices.

- **OEM/ODM Flexibility**

Offers full customization options, including logo printing, color variations, cable types, and packaging to suit your brand and product specifications.

- **Wide Industry Compatibility**

Ideal for retail, hospitality, banking, logistics, and self-service kiosks, supporting efficient charging and docking in high-traffic environments.

- **Factory Direct Quality**

Manufactured in our state-of-the-art Dongguan facility with strict quality controls, ensuring consistent product reliability and timely delivery.
