

Product Description:

Our FPC Ribbon USB Type-C Data Cable provides the perfect solution for tablets and iPads in retail and payment environments. The cable's flexible FPC design allows for maximum space efficiency while providing fast data transfer and reliable charging. Its 180-degree right-angle USB Type-C connector ensures neat cable management and a clean, organized setup for POS systems.

This USB Type-C data cable supports high-speed data transfer and rapid charging for devices such as iPads, making it ideal for use in point-of-sale systems, retail kiosks, and mobile workstations. It is designed to be rugged and durable, ensuring reliability even in high-traffic environments.

For businesses in need of custom solutions, our factory offers tailored specifications and bulk order options. Explore our related products like the [180-degree Angle Lighting USB Cable](#) and [Cable-Free Pogo Pin Cable](#).
