

Stylish & Durable

Crafted from premium CNC-machined aluminum alloy, this stand feels premium, resists wear, and stays stable under long-term use. The anodized finish adds scratch resistance and a sleek look.

Full Motion Adjustability

Equipped with smooth 360° rotation and 180° locking tilt at two hinges, this stand allows seamless transitions between landscape, portrait, sketching, or reading modes.

Workstation **Docking Hub**

Integrated docking hub includes:

- **HDMI 4K@60 Hz** for external display mirroring or second-screen use;
- **USB-C PD (60-100 W pass-through)** for powering tablets or laptops;
- **USB-A 3.0, SD/MicroSD slots, 3.5 mm audio jack** for peripherals;
- All ports can operate simultaneously without driver installation.

OEM/ODM Customization

We are a **manufacturing plant** capable of customizing:

- Logo laser-engraved or silk-screened on the base or arms
- Custom colors via anodizing
- OEM packaging and unit compliance labeling.
