

Enhance your retail or hospitality environment with our [durable and customizable Metal POS Cash Register Holder](#), built specifically for modern touchscreen all-in-one POS machines. As a **direct manufacturer with over a decade of experience**, we provide **OEM and ODM solutions** tailored to your business needs.

Key Features:

- **High-Durability Construction:** Fabricated from premium cold-rolled steel with precision surface treatment for long-term durability.
- **Fully Adjustable Design:** Tilt functionality offers ergonomic operation and optimal customer interaction.
- **Universal Compatibility:** Supports VESA standard mounts (75x75mm, 100x100mm), fitting major POS brands like Elo, Sunmi, PAX, and others.
- **Professional Cable Management:** Internal routing for USB, power, and LAN cables to maintain a clean, secure countertop.
- **Mounting Flexibility:** Available in countertop, wall-mounted, or pole-mounted configurations for diverse retail scenarios.
- **Customization Options:** Choose color, mount design, logo engraving, arm length, and finish to fit your brand or project.

We are a [POS hardware manufacturer](#), we specialize in structural design, metal fabrication, and rapid prototyping. Whether you're integrating a POS solution into a kiosk, vending unit, or custom counter design, our team provides full engineering support from concept to production.
