

Fast charging USB C cable for MPos equipments Features:

High-Speed Performance: USB 3.2 Gen 2x2 for up to 20Gbps data transfer.

Powerful Charging: Supports up to 100W Power Delivery, fast charging for laptops, tablets, and smartphones.

Right-Angle Design: 90° L-shape connector prevents cable bending and improves device ergonomics.

4K Video Transmission: Supports video output for compatible devices, ideal for extending Type-C display connections.

Premium Material: Silicone or PVC jacket for durability, tangle resistance, and flexibility.

Broad Compatibility: Compatible with MacBook, iPad Pro, Dell XPS, Steam Deck, Nintendo Switch, etc.

**Applications:**

Industrial machinery

Office docking stations

Video conferencing

VR/AR setups

Automotive USB-C interface

Gaming consoles with limited port access

Customization Support:

Cable length, angle direction (up/down), color, branding, packaging, and connector type can be customized to meet your specific B2B project needs.
