Enhance Your Checkout with the Shopify Dock for Tap & Chip Reader

Optimized for **Shopify POS** systems, the **Shopify Dock for Tap & Chip Reader** provides a stable and ergonomic solution for your payment processing. This dock elevates your **Tap & Chip Reader** to a perfect angle for smooth, efficient transactions.

Key Features:

- **Ergonomic Viewing Angle**: Raises the reader to a comfortable position for easy card tapping and chip insertion.

- **Stable & Secure Positioning**: Keeps your card reader in place during transactions to prevent slips and ensure a smooth process.

- **Integrated Charging**: Keeps your Tap & Chip Reader fully powered throughout the day, preventing interruptions in your sales process.

- **Optional Mounting**: For businesses looking for a more permanent solution, the dock can be mounted under the counter using an M5 bolt and nut.

- **Durable Construction**: Built with high-quality materials that can withstand the rigors of everyday retail use.

- **Quick Setup**: Simply slide your powered-on reader into the dock and connect it to a USB-C cable for seamless operation.

- **Cable Management**: The dock is designed with built-in cable management features to keep your countertop organized.

Whether you're located in **Shenzhen**, **Dongguan**, or anywhere else, this product ensures maximum performance, combining both style and function in a professional retail environment.
