Product Description

The **2nd Generation Square Reader Stand with USB-C Dock** is designed to enhance the functionality of your Square Reader and POS system. Built with high-quality ABS+PC material, this stand provides a secure base for your reader while enabling **fast and reliable charging through a detachable USB-C interface**.

• Key Features – Square Reader Stand (2nd Gen with USB-C Dock)

- **Detachable USB-C Port**

  - Easy to connect and replace, ensuring stable charging and long service life.

- **Secure & Stable Stand**

  - Provides a firm base for the Square Reader, preventing shaking or movement during payment operations.

- **Universal POS Compatibility**

  - Designed for Square Reader 2nd Gen and widely used in POS systems for retail, restaurants, cafés, and mobile businesses.

- **Durable Construction**

  - Made of high-quality ABS + PC materials for excellent strength, impact resistance, and long-term use.

- **Simple Plug-and-Play Design**

  - Quick installation without complex setup; users can start charging and using immediately.

- **Manufacturer Advantage**

  - Direct supply from ISO-certified factory with strong R&D capability, ensuring cost-effective and reliable solutions.

With **ISO-certified manufacturing and strict quality control**, we provide reliable POS

accessories trusted by global brands. Whether you need standard models or customized reader stands, our engineering team supports your business with **design, prototyping, and mass production**.
