

## All-in-One Docking Solution for Handheld Gaming Devices

This multi-functional **SteamDeck and ROG Ally docking station** transforms your portable console into a full desktop gaming setup. With a compact aluminum housing, it includes **HDMI 4K output**, **USB 3.0 data ports**, **Gigabit Ethernet**, and **PD 100W fast charging**. Ideal for connecting your handheld gaming device to a TV, monitor, keyboard, mouse, or LAN network with zero latency.

### Designed for Gamers and Streamers

Perfect for home gaming setups, eSports events, or travel streaming studios, this dock supports **multiple usage scenarios**:

- **Connect to 4K displays** for console-level visuals

- **Fast-charge your ROG Ally or Steam Deck** while playing
- **Expand ports for external SSDs, mouse, keyboard, or capture card**
- **Stable Ethernet port** for lag-free online gaming
- **Compact desktop setup** – perfect for gamers on the go
