

This USB A Male to 180-Degree Lightning 8-Pin Cable is engineered for [iPad POS stands](#) and holders, providing a reliable and efficient charging solution. The unique up-angle or 180-degree Lightning connector helps streamline your workspace setup, making it perfect for iPads used in POS (Point of Sale) systems. Ideal for businesses that rely on iPads for checkout, this cable ensures smooth and continuous charging, so your iPad stays powered while in use on the POS stand.

**Product Content:**

Designed with convenience in mind, this USB A to Lightning cable offers a flexible solution for iPad POS stands. Its 180-degree or up-angle connector minimizes cable strain and ensures the iPad remains securely mounted while charging. Whether you're operating a retail checkout station or a healthcare facility, this cable is an essential accessory to keep your iPad powered throughout the day. The high-quality construction guarantees durability, making it a long-lasting addition to your POS system or tablet holder setup.
