

## **All-in-One USB-C Hub for Display & Data Expansion**

This 7-in-1 USB-C **Multi-Function Docking Station** is your ideal companion for expanding device functionality. Whether you're using a USB-C laptop, tablet, or smartphone, it transforms a single port into seven versatile interfaces for work, entertainment, and data transfer.

### **Crystal-Clear 4K Video Output**

The HDMI 1.4 port supports up to 3840x2160 @30Hz, perfect for projecting presentations, watching movies, or extending displays onto TVs, projectors, or monitors.

### **PD Fast Charging While You Work**

Stay powered during use - the USB-C PD port delivers up to 100W charging while simultaneously using data and display functions.

### **Expand Storage Easily**

Access your camera files or expand your laptop storage with the SD and TF card slots (not simultaneous read), each supporting up to 512GB capacity.

### **USB Connectivity**

Connect peripherals like a mouse, keyboard, USB stick, or printer via 1× USB 3.0 (up to 5Gbps) and 2× USB 2.0 ports for basic accessories.
