

Product Overview:

This [**USB Type-C Charging Dock with Desktop Phone Stand**](#) offers a stylish and practical way to charge and display smartphones. Designed with B2B applications in mind—from corporate giveaways to consumer electronics brands—it provides:

Key Features:

- **Fixed USB-C Connector:** Plug-and-play solution for convenient charging—no need to plug in cables manually.
- **Vertical Stand Design:** Ideal for watching videos, receiving calls, or checking messages while charging.
- **Premium Materials:** Anti-scratch ABS body with a smooth metallic front—suitable for both personal and retail environments.
- **Universal Compatibility:** Works with most USB-C Android smartphones and LeEco devices.
- **Custom Factory Service:** As a **China charging dock manufacturer**, we support OEM/ODM with private label branding, unique finishes, and packaging solutions for global importers and electronics brands.

This product is widely used in consumer electronics packaging bundles, mobile phone display stands, or as part of desktop accessories. We support low MOQ for customization and can produce bulk orders with consistent quality and fast lead time.

As a [custom phone charging dock manufacturer](#), we support private label branding and OEM solutions.
