

Goochain USB Type-C PD Splitter Adapter

Our USB Type-C PD Splitter Box combines power and functionality in a compact design. With one 100W input and dual USB Type-C outputs, this adapter intelligently distributes power for efficient and safe charging. Whether used in retail POS stands, office desks, or home setups, it's an excellent solution for powering multiple devices, including tablets, iPads, smartphones, and laptops.

Designed specifically for modern charging needs, this adapter integrates seamlessly with [iPad POS stands](#) and [USB Type-C POE adapters](#), making it a versatile choice for retail environments and other business applications. Its intelligent power distribution ensures compatibility with various devices, delivering maximum efficiency and convenience.

Crafted with durable ABS material, this splitter is available in black or white, with additional customization options to meet specific needs. Backed by CE, RoHS, FCC, and UKCA certifications, it guarantees safety and quality standards for global markets.

Key Features:

- 100W PD fast charging with intelligent power splitting.
- Supports a variety of devices, including tablets, smartphones, and laptops.
- Compact design, ideal for space-saving setups.
- Fully customizable to include logos, colors, and specific functional requirements.
