

Product Description:

All-in-One POS Stand Solution for Tablets & PIN Pads - Built for Retail & Restaurant Environments

Our [Universal Tablet POS Stand with PIN Pad Mount](#) is a premium, modular checkout solution tailored for retail shops, restaurants, and service counters. Designed for security, flexibility, and seamless customer interaction, this stand combines a **lockable tablet enclosure** with a [dedicated POS terminal holder](#).

Key Features:

- **Universal Compatibility:** Supports iPads, Samsung Galaxy Tabs, Lenovo and more.
- **PIN Pad Integration:** Holds most payment terminals securely, including Verifone, PAX, Ingenico.
- **360° Rotatable Design:** Enables staff or customer-facing screen rotation.
- **Secure Locking System:** Anti-theft lock design for both tablet and POS mount.
- **Customizable Options:** OEM/ODM service for branding, structure design, bracket compatibility.
- **Professional Look:** Sleek finish, cable management, and compact footprint for tidy counters.

We are a **direct factory in China** with 10+ years of manufacturing experience in **tablet stand design, POS mounting solutions, and kiosk systems**. Our **in-house R&D team** supports custom development, bulk production, and fast delivery for global B2B clients.

Whether you are a distributor, system integrator, or end user, we provide professional-grade products that enhance the efficiency and image of your checkout points.
