

Optimize your point-of-sale system with our Smart Dock for Shopify Tap & Chip Reader, designed for modern retailers and small businesses. This sleek, compact dock securely holds your Shopify reader in place while offering continuous power via a smart anti-sleep USB cable. The built-in physical button prevents auto-sleep, ensuring quick and seamless transactions throughout the business day.

Perfect for Shopify-based small stores, cafes, restaurants, pop-ups, and more, this **dock station** enhances user experience and minimizes POS downtime.

Features:

- **Smart Anti-Sleep Functionality:** Press-button feature prevents your reader from auto-sleeping, eliminating transaction delays.
- **Secure & Stable Base:** Anti-slip design and ergonomic angle for user-friendly scanning and tapping.
- **Universal Power Support:** Includes USB-A cable and wall plug compatible with global voltage (100-240V).
- **OEM/ODM Available:** Custom branding, packaging, and private label services available for wholesale clients and resellers.
- **Plug & Play Integration:** No software needed – simply connect and go.
